

BILL ROOT

for HOME INSPECTIONS

Once your contract to buy the home you want has been accepted by the sellers, the next step is your **HOME INSPECTION**.

It is essential that your Home Inspector be thorough and experienced. As a Realtor, I've had the occasion to work with many Home Inspectors, and **the one I recommend is BILL ROOT**.

And I'm not the only one ... (just a few out of many from his website)

Jeni DiVirgilio - Realtor - 2-2-07

"Thank you, Bill. It is truly a pleasure working with you. I know that you will always be there before and even after the inspection. Getting your report emailed to me, the client and the attorney within a 24 hour period is incredible! I look forward to the next one."

Steve Prussman - Client - 10/09/05

"Thank you very much for your time on Saturday. You were very professional and took the time to explain the intricate details of the house and we appreciate that."

Deepa Raya - Client - 09/02/05

"Bill did an amazing job of going thro' each element carefully and as well as explaining me the maintenance procedure as well. Thank you for all the time and patience. I appreciate all the help"

If you're thinking about selling,
